

COMMENT N-1 (Cultural Resources):

In the executive summary of the document, there a pre-1837 house is mentioned on one of the parcels that make up this property. Does this house have any historic value, and if so can it be preserved or relocated so that it is not lost. Historic buildings help to create a sense of place that enhances a community. They are part of a community's history and cannot be recreated once they are lost.

Eric Alexander and Elissa Ward, Vision Long Island, 24 Woodbine Ave., Northport, NY, letter dated June 25, 2009, p.4

RESPONSE N-1 (Cultural Resources):

The language used in the Executive Summary section of the DEIS is somewhat unclear. The referenced house no longer exists, having disappeared from available mapping between 1837 and 1859. The former location of this pre-1837 dwelling is recommended for Phase 1B field testing in relation to the potential for archaeological resources.
