B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

The City evaluates the BMPs in the City's inventory as an indicator for measuring the overall effectiveness of the City's compliance with the Post-Construction Stormwater Management program requirements. The City's BMP inventory is up-to-date. The City has an active inspection program that issues notifications of violations, stop work order, etc. as necessary.

C. How many times was this observation measured or evaluated in this reporting period?

			1

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this measurable goal during this reporting period?

Yes No

E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?

Yes No

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

The City will add new BMPs to the inventory as necessary and will evaluate the number of BMPs inventoried as an indicator for measuring the overall effectiveness of the City's compliance with the Post-Construction Stormwater Management program requirements in the next reporting cycle. Minimum Control Measure 6. Stormwater Management for Municipal Operations

The information in this section is being reported (check one):

- On behalf of an individual MS4
- On behalf of a coalition

How many MS4s contributed to this report?

1. Choose/list each municipal operation/facility that contributes or may potentially contribute Pollutants of Concern to the MS4 system. For each operation/facility indicate whether the operation/facility has been addressed in the MS4's/Coalition's Stormwater Management Program(SWMP) Plan and whether a self-assessment has been performed during the reporting period. A self-assessment is performed to: 1) determine the sources of pollutants potentially generated by the permittee's operations and facilities; 2) evaluate the effectiveness of existing programs and 3) identify the municipal operations and facilities that will be addressed by the pollution prevention and good housekeeping program, if it's not done already.
